Education

BITS Pilani, Dubai Campus — Dubai, UAE
B.E. Computer Science — *Expected 2027*
- Relevant Coursework: Database Management Systems, Machine Learning, Data Structures & Algorithms, Large Language Models

Bishop Conrad Senior Secondary School | *Senior Secondary (Class XII)* — Bareilly, India | *2023*

Profile

Computer Science undergraduate building **digital data solutions** for pharmaceutical **omnichannel** teams: **analysing digital performance data**, **dashboard development** and **automated reporting**, **WordPress** content and **digital platform** health, and **AI and automation** that find **process-improvement** opportunities and support **data-driven decision making**.

Digital Data Solutions Projects

Digital Demand Pulse: weekly digital performance report | *Python, REST API, Excel, GitHub Actions* — Live | Code
- Analysed **146K** daily Wikipedia readership rows for 22 MSD, competitor and disease articles in **English and Arabic** (2016–2026): Keytruda holds **57%** of PD-1/PD-L1 attention (51% a year before), Januvia 3% in a semaglutide-led group
- **Automated weekly reporting**: a scheduled job refreshes data, runs checks, flags spikes (3 matched to FDA approvals) and writes a dashboard, Excel workbook and note; found Winrevair has **no Arabic article**

Site Health Monitor: digital platform audits | *Lighthouse, Node.js, Python, WordPress* — Live | Code
- Automated weekly mobile **Lighthouse** audits of **msd.com (WordPress)** and **9 pharma peers**; detected each site's platform (WordPress, Drupal, Adobe AEM) from public markup
- MSD leads on performance (median **41** vs 29) but trails on **accessibility** (90 vs 97); turned **24** failing audits into a ranked **process-improvement backlog** with WordPress fixes

CampaignOps: omnichannel analytics & content operations | *Python, SQL, PHP, WordPress* — Live | Code
- Campaign workbench over **8,930 simulated email, web and webinar events** with DuckDB SQL metrics and quarantined data defects; a **PHP WordPress plugin** publishing 12 assets with revisions and role checks
- Automated weekly **PDF, Excel and CSV reporting** and saved **Gemini** briefs with validated metric references, reconciled against the dashboard

Rx Market Pulse: commercial dashboards and AI analyst | *Python, SQL, Power BI, TypeScript* — Live | Code
- Tested pipeline over **36.1M** Medicaid rows feeding a **Power BI** report (28 DAX measures) and a web dashboard; an **AI agent** answers questions through five typed tools with refusals

Also built: Brand Forecast Studio *(ML forecasting)* · GCC Market Report · Drug Price Watch *(weekly automation)* — GitHub

Experience

Backend Developer Intern, Amaani (Travel-Tech Startup) — Dubai, UAE
BITS Practice School (PS-1) — *Jun 2025 – Aug 2025*
- Developed and maintained backend services in **Python (Flask)**, building RESTful APIs for core travel-booking features
- Documented API contracts with **Swagger/OpenAPI** and validated endpoints end-to-end using **Postman**; implemented request validation and data models

Research & Publications

Lightweight Deep Learning for Tomato Leaf Disease Detection on Edge Devices — 2025 – 2026
First Author; submitted to IEEE MSN 2026 (under review)
- Trained a MobileNetV2 classifier (10 classes) reaching **97.33% test accuracy** (macro-F1 0.963); compressed it to **5.3 MB** with INT8 quantization and ran it on a Raspberry Pi 4B at about 250 ms per image

Technical Skills & Certification

Digital Analytics & Reporting: digital performance analysis, KPIs, share of voice, anomaly detection, automated weekly reports, Excel
Dashboards: Power BI (DAX), interactive web dashboards (Next.js/React, TypeScript), accessible charts with table views
Platforms & Automation: WordPress, PHP, Lighthouse, Core Web Vitals, accessibility (WCAG, axe), GitHub Actions, Playwright
Data & AI: Python (Pandas), SQL (DuckDB), REST APIs, AI agents with typed tools, Gemini API, LightGBM
Certification: The Ultimate Job Ready Data Science Course, CodeWithHarry (2026)
